Main Topics of Discussion:

Halifax County Retreat

The attendees of the retreat expressed that it was very nice, interesting, and how they each enjoyed fellowshiping and getting to know each other outside of CFAC meetings. Cardinal representatives gave presentations of substance that empowered attendees and equipped them to perform their duties better. Our presence in the County enabled us to get members from that county involved in CFAC and it is expected that some of them will join our CFAC as we lacked membership in Halifax County. So the retreat was, indeed a success.

Future of CFAC

It was discussed that CFAC is the voice of the community; we need to be involved and have an influence on the political front by writing letters to our congressmen and representatives in order to make sure that our voice is truly heard statewide. We need to be educated and knowledgeable about what is being done and needs to be done as well as what area money is being allocated to help, etc...

Also, if anyone has ideas, concerns, or comments they are encouraged to bring them up for discussions at the CFAC meetings. CFAC is looking forward to possibly having meetings in Franklin County in the future.
