Brain Fit: We often hear of the importance of keeping our bodies physically fit, but what about our minds? There are plenty of ways to keep our minds healthy and you don't need to go to the gym to do them! Mental fitness is just as important as physical fitness. Research shows that engaging in activities that stimulate our minds, whether it be learning about a new topic, trying a new activity, working puzzles, learning a new song or playing a game can keep our minds sharp and healthy. Maintaining a healthy brain is especially important as we age. Mark your calendars for a work out!
